

Amphibians: Riddles in Rhyme

What are these riddles referring to?

From the pond
(And from an egg),
This guy jumps
On long, slim legs.

Shorter legs
And bumpy skin,
No warts, this
Amphibian.

Shaped like lizards,
But they're not.
They must seek
A cooler spot.

Body parts
Will rearrange
Egg to grownup:
What a change!

Jelly-like,
There's lots and lots,
Like underwater
Squishy dots.

Covers bodies
Thin or stout,
Letting water
In and out.

Taste makes awful-
Tasting prey.
Predators
Will stay away.
